

**Front Hood Upper Latch Fine Adjustment**

Vehicle Type: **Macan**

Model Year: **2014 to present**

Information: The upper front hood latches have a fine adjustment not mentioned in the workshop manual.

A fine adjustment to change the depth of the upper latch striker may be made at the bolt shown in the photo above.

This is a useful adjustment for front latch issues that cause a warning in the instrument cluster for the front hood being open as well as fine tuning the closed height of the hood.
