Subject: 2015 MY Golf R Front License Plate Bracket

As you may be aware, some initial orders of the 2015 model year Golf R vehicles were delivered to dealers without the front license plate bracket included in the “by-pack”. Volkswagen will be shipping parts to those dealers with unsold units today with delivery scheduled for April 14th.

Please ensure that the front license plate bracket is installed or available for all future Golf R deliveries. For installation instructions, please reference Technical Bulletin 2040233. Dealers needing additional brackets should follow the normal ordering process.

Best Regards,

VW Technical Service & Quality
