Subject: Audi Warranty Pocket Companion App V2.0
Now With *Search* Function – Download Today!

Date: Jul 14, 2015

To: U.S. & Puerto Rico Dealers

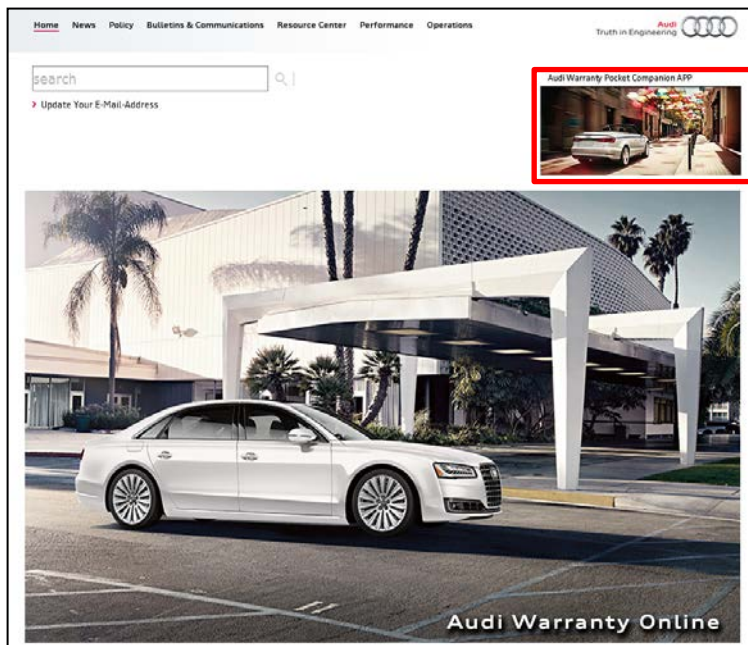

This document conveys General
Information from Audi Warranty

Since the Pocket Companion app was launched in June, many of you have suggested that the app include a search function to assist in finding specific topics faster; especially beneficial when a customer is in the service lane.

The "search", V2.0 of the app, is completed and ready for you to download TODAY!

The process to download to an Apple mobile device remains the same. Access the landing page of Audi Warranty Online, and click on the Pocket Companion image at the top right of the page. When the pop-up appears choose *install* (click *install* one time only). Then immediately check the home page on your Apple mobile device; you will see the App is installing there. It may take a few minutes to download.

If you previously installed the app (V1.0), you will note that V2.0 overlays the first version. It will not show on your home page as a second WPC icon.

Continue to provide your feedback to help us ensure the app is always a valuable warranty resource for your dealership.

PLEASE NOTE: The App is for Apple Mobile devices only. It is not available for desktop computers or non-Apple mobile devices.
