Subject: **DAVCO Shop Pro® FXP 95**

## ISSUE

DAVCO has created an updated version of the Shop Pro FXP. This update allows the Shop Pro to meet EPA07 – GHG14 priming pressure requirements for all repair and maintenance procedures of the DD engines. Additionally, the new Shop Pro meets the increased priming pressure requirements for all GHG17 DD engines. The unit will be called the Shop Pro FXP95 and painted black to differentiate from the earlier, lower pressure version. For those who already own a Shop Pro, an upgrade kit is available which will increase the pressure to the same as the new design. The following options will be available:

- Fixed Pressure Unit – Provides 95 psi at all times
- Regulated Pressure Unit - Adjustable from 50 – 95 psi for non-Detroit engines
- Fixed Pressure Upgrade Kit – Allows an existing unit to be upgraded to the 95 psi fixed pressure system
- Regulated Pressure Upgrade Kit - Allows an existing unit to be upgraded to an adjustable unit (from 50 – 95 psi)

Standard features include:

- Reliable, continuous, duty-rated A/C motor and proven, positive displacement fuel pump for years of trouble-free use
- 95 psi output pressure that provides a surge of fuel into the rail and to all injectors. This allows for a complete fuel system prime after pump or injector replacement.
- Uses the vehicle's fuel supply, eliminating shop fuel requirement and shortening labor time
- Tank sweeping function
- Fuel system flushing function
- Fuel transfer function

**In an effort to manage price and availability of the new units, they will be available directly from DAVCO only.**

Additionally, all Shop Pro Purchase Orders received by April 30, 2015 will receive an introductory special \$100 discount from the prices listed below and \$50 discount for the upgrade kits.

<b>Shop Pro 95 psi</b>	<b>782050DDC-07</b>	\$1950.00
<b>Shop Pro 95/50 psi</b>	<b>782050DDC01-07</b>	\$2307.60
<b>Upgrade Kit, 95 psi</b>	<b>782239DAV</b>	\$876.03
<b>Upgrade Kit, 95/50 psi</b>	<b>782240DAV</b>	\$1377.63

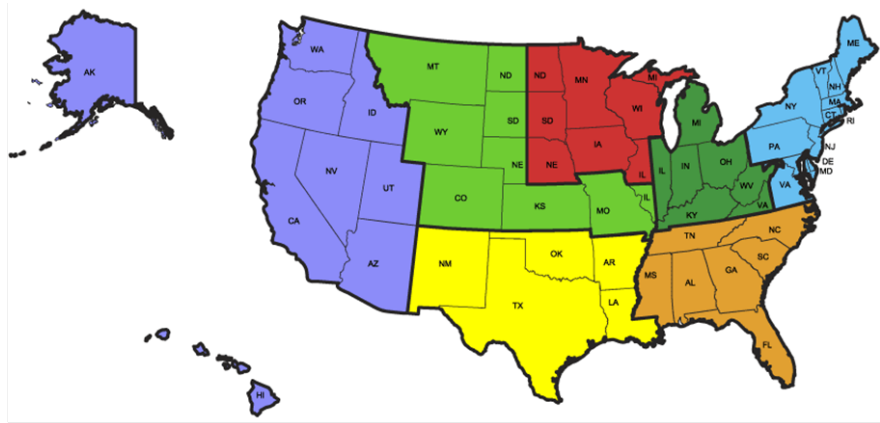

**All parts are FOB Saline, MI.**

NOTE: Lead time is 4-6 weeks.
