

No.: 15 TL-11

May 27, 2015

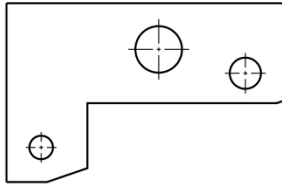

TO: Dealers Only

FROM: Service Systems Development

SUBJECT: **Detroit Transmission Tool Update**

GENERAL INFORMATION

An additional essential tool, TLZ00872, has been released for Detroit® transmissions. This tool is a drill/ream jig used for installing a split pin rod bushing. The tool will be automatically shipped and invoiced to all DT12 certified dealers during the month of June 2015.

Tool Part Number	Tool Description	Image	Usage
TLZ00872	Drill/Ream Jig		Drill/ream jig used when installing a split pin rod bushing

ADDITIONAL INFORMATION

The following locally sourced tools are also necessary for repair procedure

- 11.5 mm drill bit
- 12 mm ream bore 8" length

Refer to video on DDCSN Support/Multimedia/DT12 Transmission Split Pin Bushing Repair for tool usage and procedure. If there are any questions or concerns about the use of this tool, call the Detroit Customer Support Center. Do not attempt to modify this tool in any way; doing so may result in damage to the tool or transmission assembly.
