FROM: Service Systems Development

SUBJECT: **EPA07 DD15 Piston Kits**

Rev. Number	Date	Description of Revision
REV 4	6-10-15	Added a table for proper EPA07 DD15 engine identification.

ISSUE

EPA07 DD15 Piston Kit part number A4720300817 is no longer available. It has been superseded to new part number A4720302717. The old and new kits are similar in weight so the new kit can be used for single or multiple piston replacements in EPA07 DD15 engines.

REQUIRED ACTION

If one or more piston kits need to be replaced in an EPA07 DD15 engine, use new part number A4720302717.

Review Table 1 below to identify if a DD15 engine is an EPA07. Note: the first six (6) numbers of a DD engine serial number (ESN) is the model number.

Engine Model	Engine Series	Emission Year	Displacement	OEM
472900	DD15	EPA07	14.8L	Western Star
472901	DD15	EPA07	14.8L	Freightliner
472902	DD15	EPA07	14.8L	Sterling
