### REVISION NOTICE

February 25, 2016 Rev1:

- Applicability has been updated to include 2016 model year GS F, GS 200t, GX 460, IS 200t/300, and RC 200t/300 vehicles.

Any previous printed versions of this bulletin should be discarded.

## Introduction

2016 model year Lexus vehicles are equipped with factory installed XM Satellite Radio, including a 90-day free customer trial. As part of the Pre-Delivery Service (PDS) process, ensure that the XM Satellite Radio is activated and ready for use.

## XM Activation Confirmation during PDS

---

### Confirmation Procedure

1. With the vehicle in clear line of sight to the sky, power ON the radio. (The vehicle does NOT have to be running, but the radio must be powered ON.)
2. Press the “AM/SAT” button to switch the band to “SAT1.”

Are XM channels 7, 9, 152, and 175 displayed and audible?

- **YES** — The audio portion of the XM system is already activated. (This should be the case for most vehicles.) You are finished.
- **NO** — Go to the “Activation Procedure” in this bulletin.

### Activation Procedure

1. Ensure the vehicle has a clear line of sight to the sky.
2. Press the “AM/SAT” button to switch the band to “SAT1” and turn to channel “0 (zero).”
3. Write down the 8-digit radio ID.

**NOTE**

Please check the radio ID code carefully. The letters “I,” “O,” “S,” or “F” are NOT used in the radio ID.

4. Log on to <https://www.siriusxm.com/refresh> and follow the activation instructions OR call 1-800-TLC-XXXM (1-800-852-9696) and follow the voice activated prompts for dealer demo activation.

The activation signal is sent to the vehicle immediately and will continue to be sent for up to 2 hours. The radio may need to remain ON for up to 30 minutes to receive the XM activation signal.

5. After 30 minutes, return to the “Confirmation Procedure” in this bulletin to ensure activation is complete and repeat steps 1 – 4 above, if necessary.
