Attention: This program has been discontinued in Canada, effective May 01, 2014.

This Bulletin has been revised to announce that the program will end on April 15, 2015. Please discard Corporate Bulletin Number 05-08-46-006S.

Due to minimal demand and declining kit availability, this program will end on April 15, 2015.

Any questions concerning kit availability and orders should be directed to Instrument Sales and Service, 2833 Eisenhower Street, Suite 112, Carrollton, TX 75007, (972) 466-6292.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that

your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
