

## Instrument cluster - Fuel gauge does not indicate "Full"

Topic number	LI54.30-P-061127
Version	1
Design group	54.30 Instrument cluster/display instruments/warning devices
Date	03-23-2015
Validity	Model 453 vehicles with code 915 up to production date 06.03.2015 All model 453 vehicles with code 916
Reason for change	
Reason for block	

**Complaint:**

If the vehicle is refueled when the tank is 7/8 full, there is no change in the fuel gauge reading. It still shows only 7 of 8 segments.

**Cause:**

Faulty Instrument cluster variant coding

**Remedy:**

Vehicles with code 915 (35l variant) --> Perform SCN coding again

Vehicles with code 916 (28l variant) --> Perform reset of instrument cluster, new SCN coding is being prepared

Symptoms
Communication/information / Information display / Displays / Fuel level gauge / Display segments missing
Communication/information / Information display / Displays / Fuel level gauge / Shows too low a value
Communication/information / Information display / Displays / Fuel level gauge / Nonfunctional
Communication/information / Information display / Displays / Fuel level gauge / Shows empty
