

Date: March 6, 2015  
Order No.: V-B-58.20/04  
Group: 58

**SUBJECT:** Engines 642 and 651  
**Special Tool Return Due to Interference Issue**

Check your tool inventory for which of the following applies. Different scenarios for handling depends on the special tool being in either a kit or separate; or in the original packaging or used:

1. The special tool W 642 589 02 63 00 is present as a kit\_(including adapter W 642 589 02 63 08) in its original packaging:

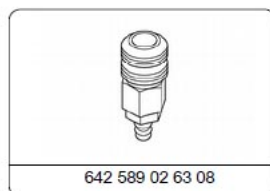

**Procedure if true:** The special tool W 642 589 02 63 00 must be sent to the responsible logistics center. In this case, you will receive a credit note for the complete kit. The new special tool W 642 589 02 63 00 can be ordered again immediately from your local facing PDC.

2. The special tool W 642 589 02 63 00 is present as a kit (including adapter W 642 589 02 63 08) without original packaging:

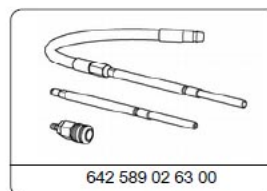

**Procedure if true:** The adapter W 642 589 02 63 08 must be sent to the responsible logistics center. In this case, you will receive a credit note for the adapter. The new adapter can be ordered under W 642 589 02 63 09 immediately from your local facing PDC.

3. The adapter W 642 589 02 63 08 was delivered separately:

**Procedure if true:** The adapter W 642 589 02 63 08 must be sent to the responsible logistics center. In this case, you will receive a credit note for the adapter. The new adapter can be ordered under W 642 589 02 63 09 immediately from your local facing PDC.
