

Service Bulletin

PRELIMINARY INFORMATION

Subject: PCV Oil Separator Kit

Models: 2013 - 2015 Chevrolet Camaro SS
Equipped with Performance Package (RPO 1LE)

The following diagnosis might be helpful if the vehicle exhibits the symptom(s) described in this PI.

Condition/Concern

Some customers may question what the purpose is for the small kit that is loose shipped in the rear compartment of the 1LE optioned SS Camaros.

Recommendation/Instructions

This kit is called a Positive Crankcase Ventilation (PCV) Oil Separator Kit and it comes in a small bag in the trunk of the vehicle when the car is first delivered. This is an option shipped exclusively with vehicles equipped with the 1LE Performance Package. A breakdown of the contents of the kit can be found as follows

1. Main housing
2. PCV cap / plug
3. Connecting Tube
4. Instruction sheet (not pictured)

This kit should NOT be installed at the dealership during the Pre-Delivery Inspection (PDI). The kit and instructions should be kept in the car. Owners are responsible for installing the oil separator in the car for track use.

The kit is designed for off-road or track use only. The production PCV system should be reinstalled on the vehicle when driving on public roads.

Important: The kit is not designed for winter driving conditions where the ambient temperature may drop below 32° F (0°C).

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.

occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
