IMPORTANT WARRANTY INFORMATION**REF 15-027**

Effective 08/24/2015

Release 08/24/2015

SUBJECT Consumable Part Cap Exclusions❖ **Consumable
Parts Expanded**

In the ongoing effort for continuous improvement, as new technology develops and is deployed on vehicles, DTNA reviews existing policies and procedures to ensure alignment and effectiveness. During a recent evaluation, DTNA determined that the list of consumable part cap exclusions must be expanded. Effective August 24, 2015, diesel exhaust fluid (DEF) caps are excluded from DTNA's new vehicle basic warranty coverage.

Per the Warranty Manual, consumable parts are, "...subject to consumption during their normal service life and are routinely replaced during normal maintenance services..." and have very limited warranty coverage. More specifically, caps that a driver might regularly remove and could possibly leave off the vehicle are considered consumable parts.

❖ **Warranty
Manual Update**

The *New Vehicle Limited Warranty > Warranty Statement > Exclusions > Consumable Parts* section of the Warranty Manual will be updated to the following:

- Caps (including, but not limited to, DEF, fuel, radiator, surge tank)*

*Please see the Warranty Manual for the full consumable parts coverage description and list; available at DTNAConnect > Warranty Lit > Other Warranty Documents > Manual.
