

No.: 15 CSA-16
July 28, 2015

TO: Service Locations and Customers

FROM: Service Systems Development

SUBJECT: **Removal of Service Information Bulletins (SIBs) from DDCSN**

SUBJECT DETAIL

Service Information Bulletins are published for updating printed manuals. Detroit publishes these letters on our DDCSN website for service locations and customers to print updated material and removed obsoleted sections from hard copy manuals.

As focus increases on our web-based documentation, hard copy manuals become increasingly difficult to revise and keep current. The first preference for service documentation is Power Service Literature (PSL) accessed through DDCSN. Keeping the correct and current information on our PSL website allows constant updating of service procedures and information.

SIBs currently appear on DDCSN:

 - MBE 900
 - MBE 4000
 - Series 50
 - Series 60
 - Transmissions
- Technical Service
- Tool
- Warranty (Service) Operations

SERVICE INFORMATION BULLETIN

Service Information Bulletins
A SIB announces a change or addition to a Detroit Diesel manual. A SIB is meant for all manual owners, including service technicians and customers.

If you need a document that was released prior to 2001, please send a request email to ddcsn@daimler.com.

ACTION TAKEN

All Service Information Bulletin content will be removed on September 1, 2015. Service Information Bulletins will be available upon request by emailing csc@daimler.com.

DOCUMENTATION FOR SERVICE LOCATIONS

Current Service documentation is available on DDCSN via Power Service Literature (PSL). All Manuals and troubleshooting information is continuously updated and is accessed online. Printed material is not needed but can be printed if desired.

A subscription to PSL is required to access all service literature.
