Feedback (all cases relating to**measure up to) (mm/dd/yy)****Complaint**

Lock barrels fall out of the case (do not lock)

Cause

Part incorrectly designed – affects part number 7749 8 544 517. The fixing plate on the lock barrel (this secures the lock in the case or top case) may fall out of the lock barrel.

Measure

The lock barrel core had been changed so that the lock is secured against falling out. A modified version has been available since 03/12/2014 under the same part number (7749 8 544 517). This new status was marked with an "x" next to the fin (see picture_01).

Complaint

Fault location	Fault type	Fault place
51/25 Case lock, lock barrel	Missing, missing part	
Locking / unlocking case	Open, Close: Fault	

Cause

#	Fault location	Fault type	Fault place
