MODEL

R55 (Clubman)

R56 (Cooper)

R57 (Convertible)

R58 (Coupe)

R59 (Roadster)

R60 (Countryman)

R61 (Paceman)

F55 (Cooper new, 4-Door)

F56 (Cooper new)

With option 609 (Professional Navigation, Headunit High) or 6UM (Mini Navigation System)

INFORMATION

The Navigation road map can be installed onto the head unit in the vehicle using a USB stick connected to the USB connector in the center console in the vehicle.

- 32GB USB stick is necessary
- Desired NAV road map version can be retrieved from the HDD-Update console

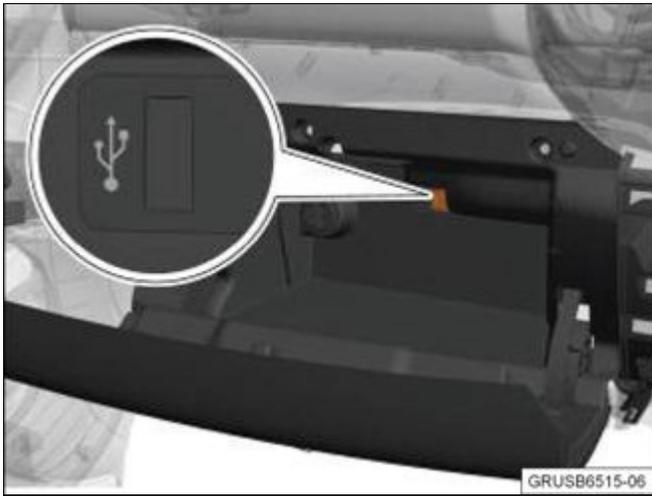

PROCEDURE

1. Copy the desired NAV road map from the HDD-Update console onto a 32GB USB stick.

Refer to the Attachment.

2. To install the desired NAV road map version into the vehicle, connect the USB stick into the USB connector. The connector is located:

- On R-Series MINI vehicles in the glove box:

- On F-Series MINI vehicles at the center instrument panel area

3. When prompted, enter the 20-digit enabling code.
4. Start the NAV road map installation and follow the on-screen instructions.

WARRANTY INFORMATION

Not applicable.
