Or

6FP (MINI Connected)

**INFORMATION**

With the release of iOS 8.0, please be aware of the important functional change noted below:

Scenario:

- The customer leaves the vehicle and turns the phone off.
- He or she turns the phone back on.
- The customer then enters the vehicle, but does not unlock the phone prior to turning the vehicle on.

**Result:**

- The phone reconnects to the Bluetooth system (normal).
- However, the contact list is not transferred (not normal).
- The contact list in the iDrive will be empty.
- The call list in the Kombi will display only phone numbers, but no names.
- The hands-free system works for accepting calls and conversing on calls started on the phone.

**Solution:**

- Prior to the customer entering the vehicle, he or she must unlock the phone at least once (passkey).

With the release of Apple's new iPhone 6, 6 Plus and iOS 8.x software, there have been many questions regarding the new phone and software.

The information in the attachment to this Service Information will help answer these questions. A printed copy can be given to the customer if needed. The attachment provides information on the differences between the new iPhone 6, 6 Plus and the previous versions, along with Apple software improvements in the following areas:

1. Visual comparison
2. Connectivity
3. Functionality

Refer to the PDF file in the "Attachment" section of this bulletin for complete details.

Information on the iPhone 6 is also available via the following website:

[www.miniusa.com/bluetooth](http://www.miniusa.com/bluetooth)

NOTE: This SI will be updated as new information is received.

**WARRANTY INFORMATION**

Not applicable.
