Subject: **S 1000 XR Missing Luggage Rack**

Dear BMW Motorrad USA Dealers,

Please be aware that a number of S 1000 XR motorcycles will not include Option 665 Luggage Rack from the factory as expected. However, the Aftersales Department will release a Service Information Bulletin in the near future describing the process for obtaining and installing a luggage rack to replace the missing item.

Attached is a list of VINs affected by this issue and a document that is included with each affected motorcycle. As further identification, each affected VIN includes option 908.

We regret any inconvenience this may cause and will work as quickly as possible to resolve this issue.

Sincere regards,

BMW Motorrad USA
