

#### **SUBJECT**

**New programming feature: Exclusion of Infotainment Control Units from Programming**

#### **MODEL**

R55 (Clubman)

R56 (Cooper)

R57 (Cooper Conv.)

R58 (JCW Coupe)

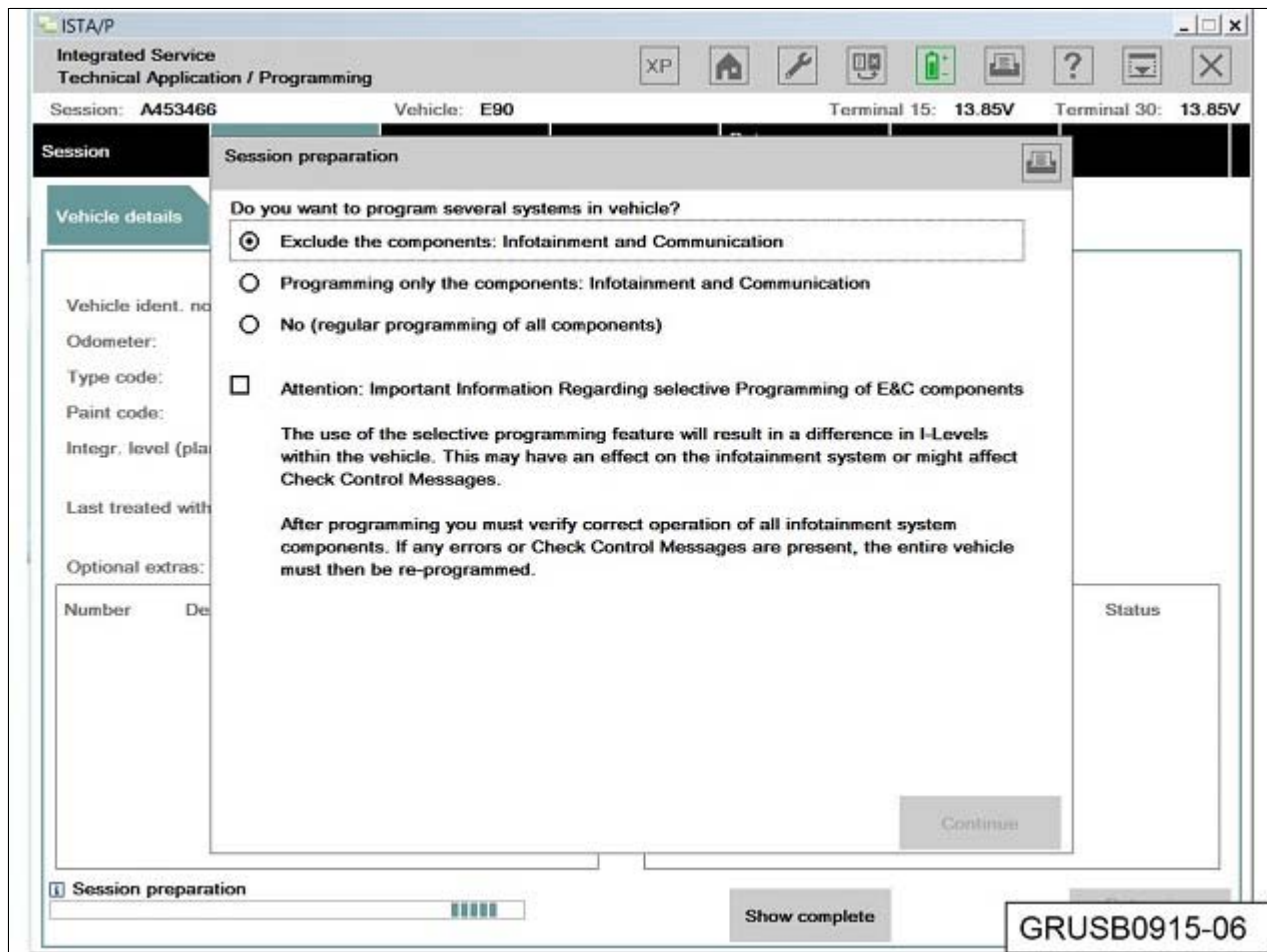

R59 (JCW Roadster)

R60 (Countryman)

R61 (Paceman)

#### **SITUATION**

Programming with ISTA/P 3.57.4, or a more recent update, displays a new Pop-Up window providing options for systems programming.

### INFORMATION

In order to gain flexibility and save time when programming E-Series vehicles, ISTA/P now provides three options (as shown in the screenshot above) for programming the control units on the vehicle:

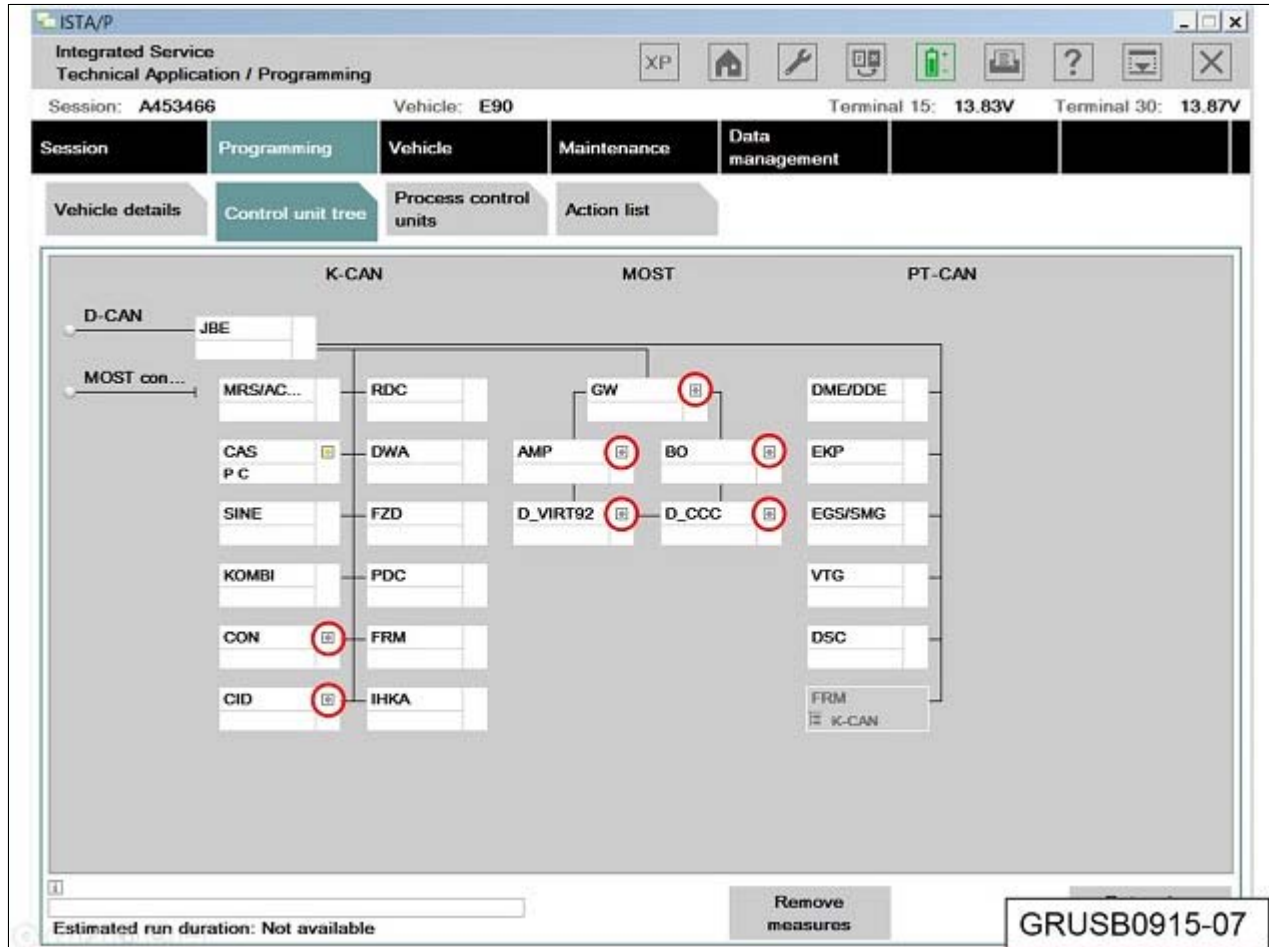

Selected Option	Control Units Programmed	
	Infotainment and Communication*	All other
Exclude the components Infotainment and Communication		X
Programming only the components: Infotainment and Communication	X	
No (regular programming of all components) - DEFAULT	X	X

Infotainment and Communication Control Units:

- Headunit/Radio

- Amplifier
- Telephone/Connectivity
- Central Display
- IDrive

When the complete programming plan has been calculated, the control unit tree displays all control units, indicating with a gray dot which will not be updated.

## WARRANTY INFORMATION

Not applicable.
