GPOP - Issue Review System

Part Number: 05033307A$

Part Description: Sensor, Crankshaft Position

Issue Description: Before replacing this part due to a P0335 fault code, please contact Andrew Acton at cell (248) 421-4130. Engineering is interested in the condition(s) present when the fault occurs.~
Also, if possible, please send Freeze Frame data and Mark Sync Event data to andrew.acton@fcagroup.com~
To Retrieve Marks Data on WiTech:~
1) Choose "Monitors" and select "OBDII Monitors" from the drop down box.~
2) At the next Screen, choose "Cam Crank Synchronization Monitor".~
3) Once you select the Cam Crank Synchronization event Monitor, you will get to the three pages of Marks Event Data.~
If no response is received within 15 minutes, then continue with the necessary repair~.
