

TRITON TRAILERS

DISTRIBUTOR BULLETIN

REAR RATCHET STRAP

To build on our last bulletin article about the 16333 rear ratchet strap, we've included additional detailed operation instructions.

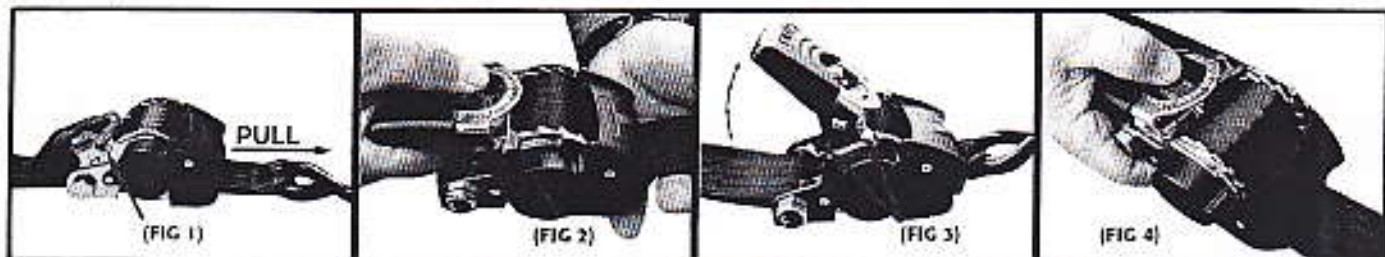

Figure 1: To start make sure ratchet is in neutral position by pressing red thumb release until it is locked in place. Pull end of strap to desired length. Attach hook to anchor point.

Figure 2: To operate press down on the red release and position tightening tabs in slot.

Figure 3: Proceed to tighten by moving the ratchet back and forth in slot until secure. Do not over tighten.

Figure 4: To retract press down on red button

90 DAYS

We are excited to have reached 90 days accident-free! Shifting our culture to one of increased awareness and accountability of safety has greatly helped us reach this goal. We've added safety leads to perform audits, develop and execute training and prioritize/implement suggestions. Since our increased focus, we have recognized and implemented 97 safety suggestions! All of

this being done by peers from the shop floor has increased involvement/engagement throughout all levels of the organization plant-wide.

REPLACEMENT COVER SKIN

Replacement side skin for white and metallic pewter, 10 and 11' covers will be sent in 12' size. This is due in large part to the low demand on colors. There will not be a charge for the longer skin. Our goal here was to reduce the amount of material and plant floor space associated with covers and TCs.

NEW RAMP FOR CAR AND EQUIPMENT HAULERS

A new heavy duty long (HDL) ramp is now available for the CH and EHHD series. This new ramp has a weight rating of 6000 lbs. and is 20 3/16" longer than 13950 hauler bi-fold ramp. The additional length makes the HDL ramp a great solution for low clearance vehicles. It uses a new heavy duty noise reduction pinning mechanism. It is possible to retro-fit the HDL ramp to any existing car hauler by adding eight holes to the rear cross member and adding ramp mounts.

Customer Instruction Sheet: 18271

Part number: 18270

Distributor Price: \$584

PARTS PRICE LIST

Changes, additions or deletions to the master parts price list will now be noted on the last page. This running list will be kept until a new issue is released and changes start over. Bulk pricing and all parts pricing, effective June 1st, have been uploaded to the distributor suite in the manuals section under the category of parts. Cover and TC pricing is in effect as of May 1, 2015. All snow and enclosed pricing will be in effect June 1, 2015 along with updated cargo accessories to reflect the enclosed pricing.
