

## **OWNER NOTIFICATION**

Dear Nissan Maxima Owner:

Nissan has discovered that your model year 2016 Maxima may not contain the most current information in the Warranty Information Booklet found in your new vehicle literature kit. This missing information relates only to the "Long-Term Emission System Defects Warranty Part List" section in the Warranty Information Booklet. This information is to assist you in better understanding your vehicle's emission warranty coverage and does not affect how your Nissan dealer may apply warranty coverage during a service appointment. Vehicle safety, fuel economy, drivability and performance will not be affected.

### **What Nissan Will Do**

To correct this condition, Nissan is conducting a Voluntary Emission Service Campaign to provide correct warranty information. Included with this letter is a supplement card that contains the most current emission warranty information as it relates to your 2016 Nissan Maxima.

### **What You Should Do**

Please store the provided warranty supplement card in a safe place for your records. Nissan recommends that you store this supplement card along with the original Warranty Information Booklet that came with the vehicle. You do not need to bring your vehicle to a Nissan dealer for any follow-up service or repair procedure.

If you have any questions related to this campaign, you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-NISSAN1 (1-800-647-7261).

Thank you for your cooperation. We apologize for any inconvenience this may cause you.
