ANNOUNCEMENT

New Priority Seating Vinyl

November 11, 2015

Priority Vinyl is a high quality printed vinyl that identifies specific seats as being "reserved" for priority passengers. Available on any Freedman back cushion or insert, Priority Vinyl has been designed specifically to pair with **Morbern's Wave Freestyle Blue**.

Both Priority Vinyl and matching **Wave Freestyle Blue** are easy to clean, stain and chemical resistant, antibacterial and antimicrobial. As with all Freedman Seating fabrics, these heavy duty, transit grade vinyls meet FMVSS No. 302 for

flammability and smoke.

"We're excited about this new and innovative product. With the increased desire for materials that can be easily cleaned and wiped off, we needed a durable and distinct way to identify these seats in a bus. Priority Vinyl accomplishes this, and then some," said Dan Cohen, Executive VP.
