Additions and changes for 2016. Refer also to the PDF document attached

5800-6700 lbs. Pontoon Trailers

PT2958TBB * PT2567TBB * PT2967TBB

Several upgrades have been made to improve the fit for newer "big tube" Tritoon boats. These are now standard on the above models.

- TA0236 Center Bunk Tritoon kit – bunk brackets made 3.5" longer & bow roller bracket made 5" longer.
- Winch post made 5" taller w/ an added bolt-on bottom step.
- TA0262 Bow Stop Riser Kit (new) for existing trailers with standard winch post when the bow stop needs to be higher.

Roller Load Guides

- TA0251 - __ for 2X3 Frames
- TA0252 - __ for 2X4 Frames
- TA0253- __ for 2x5 Frames

These roller guides were introduced mid-year. See November '14 *News Flash* for complete specifications and PartSmart for parts info.

Detachable Post Load Guides

These new "boat-friendly" load guides were designed for maximum adjustability. With that in mind, the posts are also easily removable for transport or storage when over width. They are adjustable outward to a maximum of the frame width plus 25 inches and a minimum of frame width plus 15 inches. Height is 59 inches from the bottom of the side frame.

Post Load Guides are available to fit 2X5, 2X4 & 2X3 trailer frames in the colors listed below:

Item #	Description	Post/Base Finish	Poly Sleeve Color
TA0257-00	POST LOADGUIDES 2X5 00/WHITE	Galv	White
