TRITON TRAILERS

DISTRIBUTOR BULLETIN

NEW ICE CUBE LIGHT

18473 - LED ice cube loading light is an exciting addition to our family of light options. The front of this small yet bright light measures 2 x 2". It is available for our XT, Prestige, Lowboy and Cargo series. The ice cube light can be installed on top of the rear cove, pictured above (2 kits required), inside on the spring pan (2 kits required) inside in the cove (1 kit required) or purchased pre-packaged for field installation. This option will be added to the enclosed accessory pricing.

CUSTOM DECAL KIT

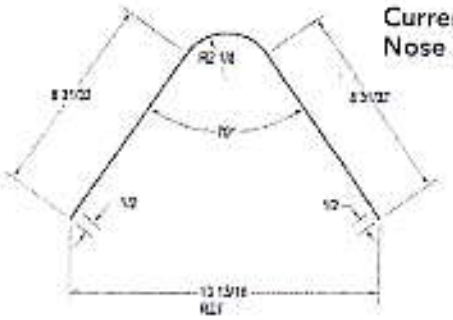

The custom color decal package, 15088, for Cargo, XT and Prestige series has been discontinued due to low demand. Currently in stock we have 1 green and 2 yellow kits.

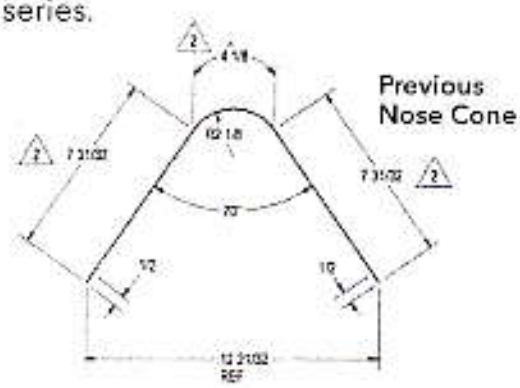

8'WIDE NOSE CONE

Nose cone side lengths have changed slightly from 8 31/32" to 7 31/32". This change is visible in the drawing below. When ordering an 8' wide nose cone include the VIN number for the intended trailer. Including the VIN will ensure you receive the correct part. Affected part numbers include: 09255 - 6' high Prestige series, 09300 - 6'6", 10928 - 7' and 14097 - 7'6" high Prestige and Lowboy series.
