ATI – Fault P055600 Brake Vacuum System: Mechanical Fault Stored in DME (1303)

Binder - Advanced Technical Information

This bulletin replaces bulletin Group 4,
#1303, dated 9-12-13.

Vehicle Type: **Panamera S Hybrid (970)**

Model Year: **2012 - 2013**

Concern: **Check Engine and Hybrid warning illuminated**

Information: If the fault P055600 is stored in the DME, the brake booster vacuum system must be function tested as per the information in Guided Fault Finding and Diagnosis Information.

If no electrical or vacuum faults are found after following Guided Fault Finding and Diagnosis Information, the fault may have been set by an intermittent stuck open check valve in the vacuum lines. The three vacuum lines containing check valves should then be replaced.

If the fault is not resolved after following Guided Fault Finding, Diagnosis Information, and replacing the vacuum lines containing check valves, please submit a PTEC-TLAR for additional support.
