2015 F-150- On Demand Diagnostic Trouble Codes (ODDTC) for the Restraints Control Module (RCM)

For 2015 F-150 vehicles, the Restraint Control Module (RCM) On Demand Self tests not available on IDS. To diagnose the RCM, use the Continuous Memory Diagnostic Trouble Code (CMDTC) status description. Wait 15 seconds after key-on before Retrieving CMDTCs. If the CMDTC Status states -+Fault is currently present ... , the DTC is -+On Demand->, even though it is displayed as a CMDTC. Follow the appropriate PPT for the indicated DTCs.
