ONLINE AUTOMOTIVE SERVICE INFORMATION FOR MAY 2015

45089 2015 Mustang 5.0L TI-VCT With DTC (Diagnostic Trouble Code) P0454 Stored In PCM (Powertrain Control Module) Memory

2015 Model Year Mustangs equipped with 5.0L TI-VCT engines may exhibit DTC P0454 (Evaporative Emission System Pressure Sensor/Switch Intermittent) stored in PCM memory. If unable to determine root cause of concern after performing Powertrain Control and Emissions Manual(PCED) Pin Point Test HX do not attempt additional repairs. Clear DTC and return vehicle to customer. Engineering is investigating this concern. Monitor OASIS for future updates.
