

# Hybrid System Electrical Safety Precautions

**Service Category** General

**Section** Pre-Delivery Service

**Market** USA

Lexus Supports ASE Certification 

## Applicability

YEAR(S)	MODEL(S)	ADDITIONAL INFORMATION
2016	LS600H	

## Introduction

This bulletin provides general high-voltage safety precautions for the hybrid system. The hybrid system circuits operate with up to 650 volts. These high voltages are dangerous and can cause severe personal injuries, burns, and electrical shock if proper safety precautions are NOT followed. Be sure to carefully review all applicable Repair Manual procedures BEFORE performing service.

## Hybrid System Electrical Safety Precautions

### Warranty Information

OP CODE	DESCRIPTION	TIME	OFF	T1	T2
N/A	Not Applicable to Warranty	-	-	-	-

### Required Tools & Equipment

SPECIAL SERVICETOOLS (SST)	PART NUMBER	QTY
Electrical Insulating Gloves*	<a href="#">00002-03100-S</a> (Small)	1
	<a href="#">00002-03200-M</a> (Medium)	
	<a href="#">00002-03300-L</a> (Large)	

#### CAUTION

Always inspect Electrical Insulating Gloves before use for cracks, ruptures, tears, pinholes, or damage. Do NOT wear if damaged.

#### NOTE

Additional SSTs may be ordered by calling 1-800-933-8335.

\* Essential SST.

### Electrical Safety Precautions

#### CAUTION

#### HYBRID HIGH-VOLTAGE SAFETY NOTICE

A Lexus gas/electric hybrid vehicle has high-voltage DC and AC systems. Both DC and AC high-voltage are very dangerous and can cause personal injury, severe burns, electric shock, and even fatal injury if proper safety precautions are NOT followed.

*Regular Service and Repairs (Pre-Delivery Service [PDS], and Non-High-Voltage Maintenance and Service)*

Ensure that all persons performing PDS or non-high-voltage maintenance and service:

1. Follow all Caution labels attached to high-voltage parts.
2. Do NOT touch or attempt to remove or replace any high-voltage (orange-colored) wiring and connectors.
3. Do NOT touch the orange service plug.
4. Read, understand, and follow the safety procedures in the Pre-Delivery Service Manual, Repair Manual, and all applicable Service Bulletins for the vehicle.

## Hybrid System Electrical Safety Precautions

### Electrical Safety Precautions (Continued)

#### **CAUTION**

#### **HYBRID HIGH-VOLTAGE SAFETY NOTICE (Continued)**

##### *High-Voltage Repairs*

Ensure that all technicians performing repairs to high-voltage systems:

1. Complete the hybrid training course L071 provided at the Lexus Area office.
2. Read, understand, and follow the safety procedures in the Repair Manual and all applicable Service Bulletins for the vehicle.
3. Use high-voltage gloves and safety glasses whenever servicing high-voltage systems.
4. After disconnecting the service plug, wait **AT LEAST 10 minutes BEFORE** touching any of the high-voltage connectors or terminals.
5. Are responsible for managing the safety of any hybrid vehicle or parts they are working on.
6. Maintain a "safety zone" around their work, including using yellow caution tape and "DO NOT TOUCH "HIGH-VOLTAGE" signs when high-voltage system repairs are to be left unattended.

##### *In the Event the Hybrid Vehicle Is Involved in an Accident*

1. Do **NOT** touch any high-voltage wiring, connectors, or parts, such as the inverter or the hybrid battery assembly.
2. Do **NOT** touch the potassium hydroxide electrolyte that might spill or leak from the hybrid battery as the result of an accident. If potassium hydroxide electrolyte gets on your skin or in your eyes, neutralize it **IMMEDIATELY** with a saturated boric acid solution (ratio: 80 grams boric acid to 2 liters water or alternatively, flush repeatedly with large amounts of water).

#### **SEEK IMMEDIATE MEDICAL ATTENTION.**

3. If a vehicle fire occurs, water has been proven to be a suitable extinguishing agent.
4. See the Emergency Response Guide on the Lexus Technical Information System (TIS) or Dealer Daily for more information.

If you have any questions, contact your District Service and Parts Manager.

For additional Caution notices, download the PDF files from Dealer Daily, Lexus Customer Services website, Forms, and print on a color printer.
