Title	DTC U001187 Medium Speed CAN BUS performance - Missing Message
Category	Electrical
Last modified	17-Aug-2015 00:00:00
Symptom	205000 Electrical Accessories

Content

Issue

Diagnostic Trouble Code (DTC) U001187 'Medium Speed Can Communication Bus Performance – Missing Message' may be noted in the Auxiliary Control Module (AUCM) during a Symptom Driven Diagnostics (SDD) fault code read.

Cause

Software calculation.

Action

If the DTC U001187 is present in the AUCM and the customer has reported a concern with the Head Up Display (HUD) functionality, then continue with diagnostics using SDD and with reference to TOPix.

If the customer has not reported an issue with the HUD system, then the DTC can be dis-regarded and no further investigation into its origin required
