Title	XJ / X351 16MY InControl Touch Pro Navigation Map Update - incorrect website displayed.
Category	Diagnostic Software Hardware
Last modified	17-Dec-2015 00:00:00
Symptom	000101 Diagnostic Concerns
Content	Issue: During the Pre-Delivery inspection, the application 'InControl Touch Pro Navigation Map Update' is required to be completed using Symptom Driven Diagnostics (SDD). When the application is launched, the user is presented with an on screen message instructing them to visit a website to download map software. The website displayed on SDD is incorrect. 'www.navigation.com/jaguar' = incorrect website Action: Please review the relevant service bulletins for InControl Touch Pro Map Installation instructions and links to HERE Online dealer order center (DOC). : • **USA :** 6-285USA (JBN/Product Support/workshop admin.) • **CAN :** JLRCS-1511.02 Full details of the InControl Touch Pro Map Installation are available in TOPIx workshop manual 101-01:Pre-Delivery Inspection Manual. The application will be amended to display the correct websites This SSM will be updated when the SDD software level and release date are known.
