<b>Subject:</b> <b>BSM RADAR AIMING CANNOT BE PERFORMED AFTER RIGHT-SIDE BSM CONTROL MODULE REPLACEMENT</b>	<b>Bulletin No:</b> 09-036/15
	<b>Last Issued:</b> 09/08/2015

## APPLICABLE MODEL(S)/VINS

2016 Mazda2

2016 CX-3

2016 MX-5

## SERVICE NOTE

If the right-side BSM control module requires replacement for any repair, also replace the left side BSM control module to complete the radar aiming procedure (it is OK to replace the left BSM alone).

### REASON

If the right-side BSM control module is replaced alone, "Automatic Configuration" is not performed due to a program error in the module. Because of this, the required "BSM Radar Aiming" cannot be performed.

"Automatic Configuration" as well as "BSM Radar Aiming" can be performed, if the left-side BSM control module is replaced alone or together with the right-side BSM control module.

Replacement of BSM Control Module		Radar Aiming
Left Side	Right Side	
Not Replaced	Replaced	Not Possible
Replaced	Not Replaced	Possible
Replaced	Replaced	Possible

**NOTE:** For details of "Automatic Configuration" and "BSM Radar Aiming", refer to MS3 online or Workshop Manual section 15-20:

- BLIND SPOT MONITORING (BSM) CONTROL MODULE REMOVAL/INSTALLATION
- BLIND SPOT MONITORING (BSM) RADAR AIMING

**CONSUMER NOTICE:** The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership.
