Title	Steering Wheel Contaminated By Transpotation Cover
Category	Body
Last modified	09-Sep-2015 00:00:00
Symptom	107000 Interior Trim
Attachments	Steering Wheel Clean.pdf (Steering Wheel Clean.pdf)

Content

Issue

When removing the transportation steering wheel cover, residue from the cover may be found left on the steering wheel.

Cause

Degradation of the protective cover in certain climatic conditions.

Action

1. Obtain a 100% natural rubber glue eraser (see fig1) these can be obtained from craft / art shops or ordered on line from internet retailers.
2. Using the eraser carefully remove any white marks from the steering wheel (see fig 2).
3. Using a non-solvent based interior cleaner on a clean cloth rub off any residue that is left.
4. Polish the surface with a clean dry cloth.
