

# TECHNICAL BULLETIN

LTB00676NAS2

05 OCT 2015

© Jaguar Land Rover North America, LLC

NOTE: The information in Technical Bulletins is intended for use by trained, professional Technicians with the knowledge, tools, and equipment required to do the job properly and safely. It informs these Technicians of conditions that may occur on some vehicles, or provides information that could assist in proper vehicle service. The procedures should not be performed by 'do-it-yourselfers'. If you are not a Retailer, do not assume that a condition described affects your vehicle. Contact an authorized Land Rover service facility to determine whether this bulletin applies to a specific vehicle.

### **MARKETS:**

NAS

### **CONDITION SUMMARY:**

**Situation:** The door mirror may 'judder' during powerfold (manual or automatic) operation and/or may be loose or vibrates.

**Cause:** This may be caused by a tolerance stack-up between the door mirror and the door and/or the retaining screws may be loose/under torqued.

**Action:** Should a customer express this concern, follow the appropriate Service Instruction **[A or B]** outlined below.

### **PARTS:**

WC105002

Washer

Quantity: 4 (2 per side)

### **TOOLS:**

Refer to Workshop Manual for any required special tools.

## **WARRANTY:**

**NOTE:** Repair procedures are under constant review, and therefore times are subject to change; those quoted here must be taken as guidance only. Always refer to TOPIx to obtain the latest repair time.

**NOTE:** DDW requires the use of causal part numbers. Labor only claims must show the causal part number with a quantity of zero.

DESCRIPTION	SRO	TIME (HOURS)	CONDITION CODE	CAUSAL PART
Door mirror - Powerfold - Diagnosis and rectification	<b>76.11.89.67</b>	0.2	41	LR041878
