

GPOP - Issue Review System

Part Number: 05149062A\$

Part Description: Oil Pressure Sensor

Issue Description: Check Engine Light (MIL) with Fault Code(s) P06DD or P06DE. The most likely cause is the oil pump solenoid. The solenoid is part of the oil pump assembly and cannot be serviced separately. Replace the oil pressure switch before the oil pump only if one or more of the following Oil Pressure Sensor related fault codes is pending, active, or stored: P0520, P0521, P0522, P0523, or P1524. If you have any questions, please call Tim McDonald on his cell phone @ (248) 701-9618. If you do not receive a call back within 15 minutes, Please proceed with the repair.
