

| | |
|-------|--|
| 45794 | 2016 F-Super Duty F650/750 vehicles can be equipped with Park position. Not all vehicles are equipped with a Park position. The instrument cluster indicates the available gear positions for the vehicle configuration (PRNDM or RNDM). The vehicle specs (GVW, tire size, axle ratio) dictate the configuration designed for each vehicle. No attempts should be made to modify a vehicle to add Park. |
