

Dashboard Side Vent Reflection in Door Glass

AFFECTED VEHICLES

2015-16 TLX

EDITOR'S NOTE: This article revises the one posted in **December 2014**. Changes are highlighted in **yellow**.

The dashboard side vent can cast a noticeable reflection in the door glass, which some clients have found distracting when using the mirrors. It's noticeable because of the contrast between the satin silver trim around the vent and the surrounding black dashboard.

To improve client satisfaction, new dashboard side vents are now available in Acura parts stock. These vents are solid black, casting a less noticeable reflection in the glass.
