

Model Year 2016 Scrambler Flat Track Pro Introduction
Models: 2016 Scrambler Flat Track Pro (all versions and countries)
Service Bulletin SRV-SRB-16-011

Date: March 3, 2016
To: Dealer Principal, General Manager, Service Manager, and Service Technician
From: Richard Kenton, Technical Director; Jonathan LaForte, Technical Manager

Dear Ducati Dealer,

Ducati is pleased to provide further details regarding service strategy for the Model Year 2016 Scrambler Flat Track Pro; which will complete the information that you've already received, or that you will receive, during the technical courses at our training centers.

Within the document you will also find all the references necessary to prepare the vehicle for pre-delivery inspection, and the instructions for vehicle maintenance.

Please be reminded that during the first 6 months (until 7/31/2016) any and all faults found on the motorcycle must be communicated through **YouTech**, including a detailed description and picture(s). Warranty claim approval is dependent upon these reports (this process does not apply to service under Campaigns, Technical Bulletins or Tips & Tricks).

Here follows a recap of the status of all Service operations associated with this model:

Technical Training	Under delivery from DNA/ DMH
Spare parts catalogue	Already available on DCS
Workshop manual	-
DDS Diagnosis 2.0	Already available for download
Maintenance plan and pre-delivery inspection.	Attached to Service Bulletin SVC-15-003
Flat rate tables	Available by February on DCS
Owner's manual	Already available on Ducati.com website under section Dealers/Service/Maintenance

SERVICE

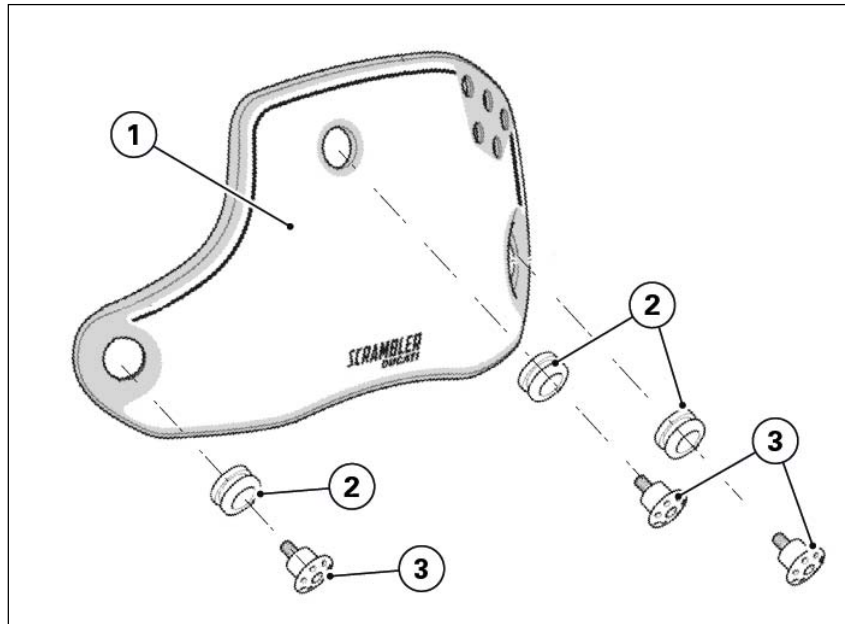

PRE-DELIVERY - Check List

Model Year 2016 Scrambler Flat Track Pro Introduction
Models: 2016 Scrambler Flat Track Pro (all versions and countries)
Service Bulletin SRV-SRB-16-011

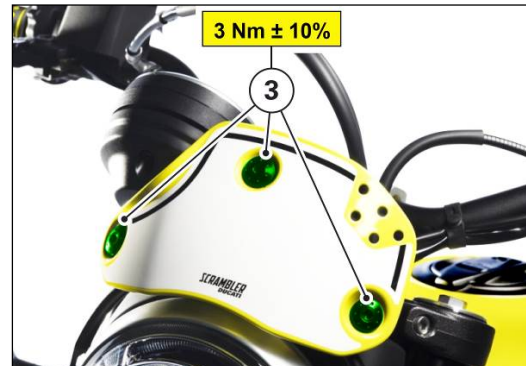

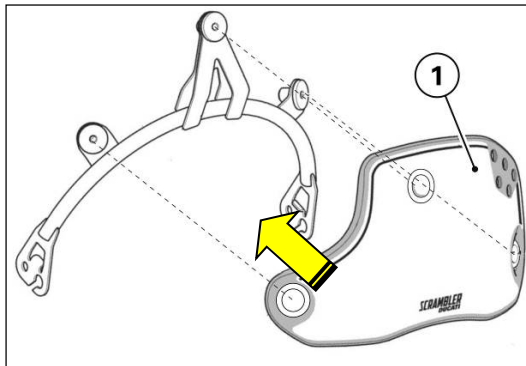

The kit supplied with the Flat Track Pro version contains the sport headlight fairing that must be installed with all the parts required for the pre-delivery inspection. Below are the instructions for the assembly:

Position	Description	Part no.	Quantity
1	Sport headlight fairing	48710931AA	1
2	Rubber block	75840621A	3
3	Special screw	77918092AA	3

Install the 3 rubber blocks (2) on the sport headlight fairing (1).

Install the **sport headlight fairing (1)** on its support, start the **3 special screws (3)** and tighten them to a torque of **3 Nm ± 10%**.

Models: 2016 Scrambler Flat Track Pro (all versions and countries)
Service Bulletin SRV-SRB-16-011

- **Maintenance chart**

The maintenance plan does not change from the other Scrambler models, and interventions are in Scheduled Maintenance Check List (**Ed.01/15**) attached to Service Bulletin SVC-15-003 “Model Year 2015 Scrambler Introduction”.

Please print a color copy of this form, fill it in thoroughly and turn it in to Customer (keep a copy attached to work order).

DUCATI
SERVICE
Scheduled Maintenance

Please be reminded that on the Scrambler Flat Track Pro the Oil Service 1000 must be performed at 1,000km (600mi) and the Desmo Services must be performed every 12,000km (7,500mi). The technical information contained in this document may undergo changes. We recommend always checking such information against the data provided on the workshop manual and dedicated technical bulletins.

We thank you in advance for your attention and cooperation.
