EDITOR'S NOTE: This article replaces the one posted in **July 2016** to extend the article's shelf life. The issue(s) covered are still being addressed.

Engine oil consumption may be exceeding client expectations. If you get a vehicle in for an oil consumption concern, be sure to run an oil consumption test using the *Engine Oil Consumption Test* job aid in SIS.

We anticipate a service bulletin with complete troubleshooting and repair info in the near future. In the meantime, contact Tech Line if you need any help with troubleshooting. And if the vehicle is out of warranty, be sure to contact your DPSM for possible goodwill consideration.
