<b>MY14- MY17 Corolla Brake Vibration</b>		<b>USA</b>
Service Category	Section	
<b>Brake</b>	<b>Brake (front)</b>	
Applicability		
<b>MY14- MY17 Corolla</b>		

**APPLICABLE VEHICLES**

2014-2017

Corolla

**CONDITION**

In some MY14 – MY17 Corolla vehicles with less than 10,000 miles, customers may experience a vibration feeling when braking or on deceleration. This can occur at various speeds or pedal application forces.

**RECOMMENDATIONS**

- Please do not disassemble. Create a TAS case and contact Technical Assistance (TAS) to submit details on any vehicle identified matching the condition described in this document prior to repair.
- If you are attempting to contact TAS on a weekend or TMS holiday, continue with diagnosis and submit the requested information on the next available work day. Retain all replaced parts and technician notes for possible review with TMS TAS Product Engineer.
