Bulletin No.: 16-NA-201

Date: June, 2016

INFORMATION

Subject: Information on Changes to Corvette Ground Effect Shipments

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Corvette	2016	2017			All	All

Involved Region or Country	North America and N.A. Export Regions
Additional Options (RPO)	Equipped with Carbon Fiber Performance Package (RPOs CFV or CFZ)

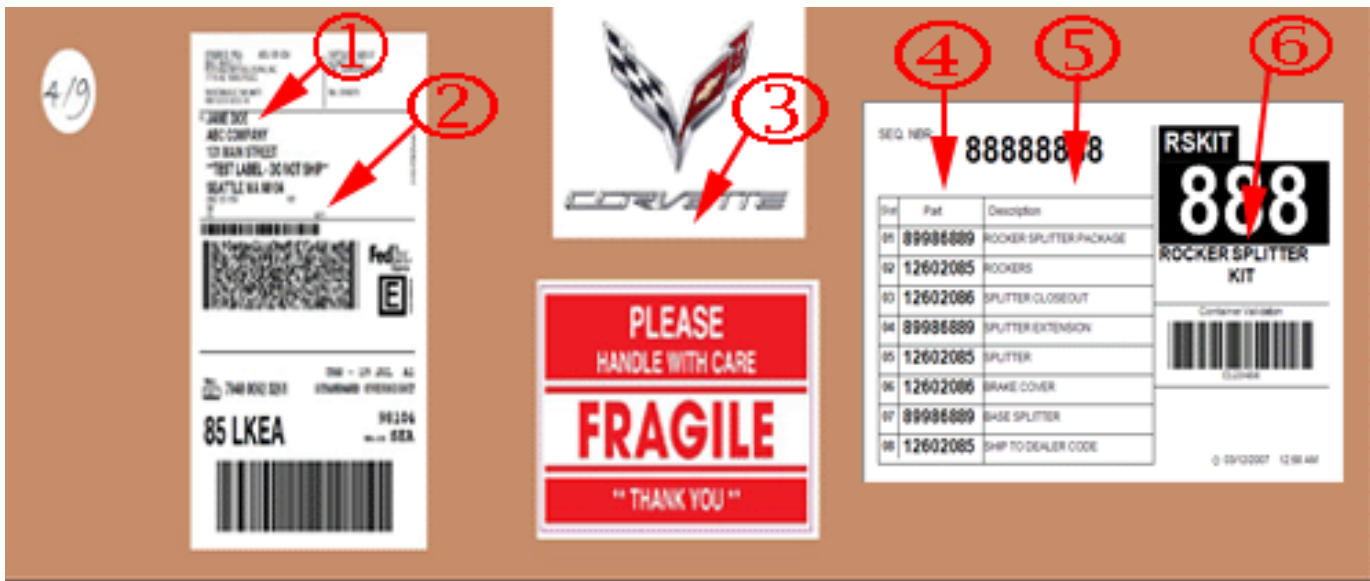

The following bulletin is informing dealers of the new process for shipping the Corvette's ground effect components and other loose shipped parts for new vehicles.

Note: This applies to all coupe and convertible models.

Please be aware the ground effects and other loose shipped parts will no longer be shipped inside the vehicle.

Instead the components will be shipped separate from the vehicle, just like the current LPO accessories.

Example of New Shipping Label

4543654

Version	1
Modified	

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
