**\*\*\*\*\* Dealer Responsibility \*\*\*\*\***

It is the dealer's responsibility to check Service Comm using the appropriate Campaign I.D. for the campaign status on each vehicle falling within the range of this voluntary service campaign which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in dealer inventory. If a VIN subject to this voluntary service campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.

A. Vehicle content does not match Monroney Label.

**Q. What will be the corrective action?**

A. Nissan dealers will install splash guards on the affected vehicles identified in SERVICE COMM.

**Q. How long will the corrective action take?**

A. Nissan will begin notifying owners in September, asking them to bring their vehicles to an authorized Nissan dealer to have the missing accessory installed.

**Q. Are parts readily available?**

A. Yes.

A. No, the installation will be performed for the customer free of charge for parts and labor.

A. No, any authorized Nissan dealer is able to perform the voluntary service campaign.

**For Consumer Affairs:** Please inform us of the dealer where you would like to have the corrective action completed.

**For Dealer Service & Warranty Personnel:**

**Q. The previous dealer inventory service action claims information only included coverage for labor. How can dealers be reimbursed for expenses related to ordering parts to complete this repair?**

A. When the dealer inventory service action was launched in February, 2016. Parts were automatically shipped to dealers for both inventory and retailed vehicles subject to this action. **Parts were labeled with the affected VINs and the dealer was not billed for these parts shipments, so only labor was claimed.**

The voluntary service campaign now includes additional VINs that were retailed and did not receive the missing accessories prior to sale. If a dealer is required to order parts in order to complete this accessory installation on an affected vehicle, those parts may be claimed under this campaign.
