**TOL NOTICE (US&CAN) – April 28, 2016**

## Street Twin High Level Exhaust Installation Requirements

As a clarification for dealers, the Vance & Hines 2 into 1 High Level Full Exhaust System (A9600620) installation instructions for the Triumph Street Twin recommend the removal of the passenger pegs. These pipes are intended for off-road use only, so passenger peg removal does not pose a compliance issue.

Consumers should also be aware that proper fitment of this exhaust will require the replacement of the existing right side panel with the correct color-matched Accessory Side Panel (A9700591-PG, A9700591-PS or A9700591-PR depending on bike color).

Please contact Triumph 24/7 Customer Support at (888) 284-6288 if you have any questions regarding proper fitment of this product.
