Subject Recall Off-Lease Acknowledgment Form

As stated in the Stop Sale/Safety Recall: Honda 2005-2016 Multi-Model Driver's Airbag Inflator Dealer Q&A, dealers can ground off lease vehicles and sell it back to the customer. The off-lease vehicle can only be sold back to the originating lessee with a signed acknowledgment stating the vehicle is under the recall. The Acknowledgement form attached [here](#) must be signed by both the customer and the dealer. As a reminder, the vehicles impacted by the recall cannot be sold to a different customer.

We appreciate your continued support of Honda Financial Servicessm. We will keep you informed of any further developments regarding the recall and stop-sale.
