Subject Product Update: 2015 Fit and 2016 HR-V Door Handle Bracket - PARTS AVAILABILITY

On December 22, 2015 American Honda announced two product updates for 2015 Fit & 2016 HR-V vehicles to inspect the inner door handle brackets for corrosion.

Repairs for both Fit and HR-V, will require a rust remover. One can of 08732-9020, which can repair 35 vehicles, has been allocated to every dealer. Since then, the part has been controlled where dealers had to contact their facing Part Center to request a part.

Effective Tuesday January 26, 2016, PN 08732-9020 will no longer be controlled. Effective on Tuesday you can order parts through normal order method no longer requiring contacting your facing Part Center to request a part.

Thank you,

American Honda Parts Operations
