Content	<p><u>Issue</u>: Rear cameras are being replaced when it is not required.

 <u>Cause</u>: Perception on how the display should be.

 <u>Action</u>: Please see the attached file which differentiates between the two cameras and how the rear bumper is displayed in relation to the picture. No cameras should be replaced when the pictures match those of the display.</p>

High Line Camera View

High Line Reverse Camera View : Tailgate Finisher shown with a line of curvature

Low Line Camera View

Low Line Reverse Camera View : Tailgate Finisher shown with an angled edge
