2010-2016 Eos, Golf, GTI, Jetta 2012-2017 Passat 2011-2017  
CC – No Communication with the J519 Vehicle Electrical  
System Control Module/Body Control Module

July 22, 2016: Update to Model Year Applicability.

---

If no communication can be established to the Vehicle electrical system control module J519 (address word 09) in Guided Fault Finding or Vehicle Self Diagnosis, it may be necessary to cycle door locks. It is recommended to cycle both the remote locks and the driver's door lock switch when attempting to communicate with the module using the scan tool. Ensure all vehicle doors are unlocked before communication is retried.
