A/C Compressor Replacement, GFF Performance Test Required Regardless of Concern

This bulletin applies to any repair that requires replacement of the air conditioning compressor.

Technical Background

Any replacement of A/C compressors-regardless of the reason for failure-must include an ODIS GFF cooling performance test plan of the A/C system with documentation of the recovered refrigerant volume.

I Note:

This GFF test plan requirement is mandatory without exception for reimbursement.

Production Solution

Not applicable.

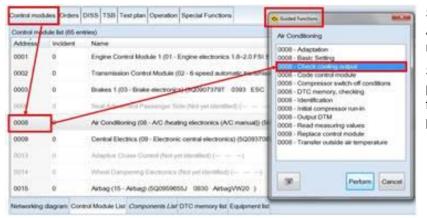

Service

1. Before replacing the A/C compressor perform the ODIS AC Performance Test.

Note:

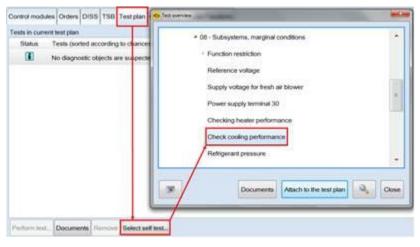

The AC performance test is located in different locations and may be titled differently for different vehicle car lines.

Select Guided Functions from 08 AC/heating electrical control module.

Select Check cooling performance from the Guided functions menu and select perform. (Figure 1)

Figure 1: AC Performance test CC Tiguan, Golf, Golf SportWagen, Jetta SportWagen, Climatic/Climatronic

Select the Test Plan tab from 08 AC/heating electrical control module.

Select self-test and locate the Check cooling performance test under the following sub menus.

Passat: Body/ Heating Ventilation-Air Conditioning/01 Systems Capable of selfdiagnosis/08 Air Conditioning-Heating Electronics/08 Subsystems marginal condition.

- 2. Follow prompts and complete the test plan.
- 3. Test result next steps,
- If A/C performance test returns with no malfunctions, then no repairs are needed. The system is operating properly.
- If A/C performance test returns a malfunction, perform diagnosis and repair the system as needed.

Note:

All other applicable bulletins apply. See TSB 2043893 for information on required documentation of recovered refrigerant volume.

Warranty

Note:

Claim the time units accumulated from the GFF function test. Time units not to exceed a maximum of 100 TU.

To determine if th Procedures Manu		dure is co	overed under Warr	anty, always refer	to the Wa	arranty Po	olicies and
