Text

DESCRIPTION:

* Vehicle types added.

Blisters/bubbles may appear on the air vent surfaces (see picture “Damaged surface. jpg”), follow instructions under Service.

SERVICE:

The blistering of the material is often caused by an air freshener applied directly to the air vents, see picture (“Air freshener1.jpg”).

* Do not attach any sort of air freshener directly on air vents.

VEHICLE REPORT:

Yes, please submit a Vehicle Report if the service solution described in this TJ has no effect. Use concern area “Vehicle Report” and sub concern area “Support not needed”, use function group 8819.
