CONDITION

Navigation microSD (mSD) card reads an error when missing or swapped from another vehicle.

RECOMMENDATIONS

- Do not interchange mSD cards. Each mSD card is “paired” with the head unit.
- Once a mSD is “paired” with a vehicle, it may not be swapped into a different vehicle.
- A new mSD is “unpaired” and becomes “paired” when inserted into the vehicle.
- Service exchange radios come in “unpaired” service mode and accept used mSD cards.
- If a mSD card is swapped, returning it to the original vehicle will remedy the concern.
