

Service Bulletin

TECHNICAL

Subject: Trunk Bag Missing Tire Compressor, Tire Sealant and/or Spacer

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Volt	2016	2016	November 25, 2015	January 4, 2016	All	All

Condition	Some 2016 Chevrolet Volt trunk bags may be missing the tire compressor, tire sealant and/or cardboard spacer.
Cause	This may be caused by the components not being placed in the trunk bag during assembly.

Correction

If you encounter a vehicle that is missing one or more of the three components, order the following kit to replace the missing components.

Note: The following kit will include the tire compressor, tire sealant, and the cardboard spacer.

Parts Information

The following kit should be ordered by using the Warranty Parts Center Parts Request Form at the bottom of this bulletin.

Description	WPC Part Number	Qty
Missing Tire Inflator Components	WPC 798	1

Warranty Information

The required labor is included in 0590072 for the Pre-Delivery Inspection (PDI).

Vehicle VIN:

Important: If you do not receive the part within 2 business days after e-mailing or faxing your part request to the Warranty Parts Center, please call WPC Customer Assistance at 248-371-9901/9902.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
